

DECORATION SPEC SHEET

OE711 OGIO® Flash Jacket

FRONT DECORATION DIMENSIONS

COL	Collar Left	1"H x 2"W	
COR	Collar Right	1"H x 2"W	
LB	Left Bottom	4"H x 4"W	
LC	Left Chest	4"Hx4"W	Primary
RB	Right Bottom	4"H x 4"W	
RC	Right Chest	4"Hx4"W	

BACK DECORATION DIMENSIONS

BA	Back	19"H x 16"W	
BB	Back Bottom	6"H x 10"W	

COBC	Collar Back	1"H x 4"W	
-------------	-------------	-----------	--

SLEEVE DECORATION DIMENSIONS			
FSL	Full Sleeve Left	4"H x 21"W	
FSR	Full Sleeve Right	4"H x 21"W	
LS	Left Shoulder	4"H x 4"W	
LW	Left Wrist	3"H x 3"W	
RS	Right Shoulder	4"H x 4"W	
RW	Right Wrist	3"H x 3"W	

Decoration area is dependent on garment size, decoration method and the equipment being used. Please consult your decorator or supplier.

DECORATION TECHNIQUES [Click the icon for details](#)

EMBROIDERY

SCREEN PRINTING

HEAT TRANSFERS

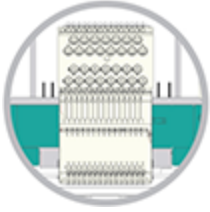

LASER ETCHING

ESSENTIAL PRODUCT INFORMATION

Due to the nature of 100% polyester fabrics, special care must be taken throughout the decoration process when heat is applied for curing. Please consult with your decorator or material supplier.

TIPS FROM OUR EXPERTS BY DECORATION TECHNIQUE

EMBROIDERY

Embroidery is the art of embellishing a piece of apparel with a needle and thread or yarn creating stunning visual representations of various types of art. This is achieved by converting logos in a digitizing software and using various stitch patterns, angles, density and stitch types to create depth, movement and detail. Thread can be made from many materials. The most commonly used threads are polyester and rayon. There are also options such as metallic, cotton, nylon, silk and even Nomex thread for fire resistance. Embroidery has a very high-perceived value and is popular for use on most apparel, bags, hats, luggage, blankets and more!

SCREEN PRINTING

An imprinting method in which the image is transferred to the fabric. Ink is squeegeed through a stenciled screen stretched over a frame and then cured in a dryer.

low cure low bleed, ining inside

HEAT TRANSFERS

A graphic, name and or number applied to a textile with a heat press. Great for quantities of any size, sports name and numbering, fashion, performance wear, print on demand programs and on-site decorating events.

Heat transfers with an aggressive adhesive are required for stain release, water resistant/waterproof coated and nylon fabrics. Consult with your transfer supplier for recommendations.

LASER ETCHING

Laser etching is a decorating process that burns a pattern into the top layer of fabric, giving it a subtle tone-on-tone appearance. The image the etching creates has an upscale look that is usually the same color but several shades darker than the original fabric's color. It works well with both big or small logos.

Test etch prior to production to dial in wattage and speed. Darker colors may not give you the desired outcome.*; *Please consult with your decorator, equipment, and consumable supplier.

It is a best practice to consult with your decorator or consumable supplier(s) for accessories, specialty frames and applications that are specific to a shop's setup and equipment.
